

# CLASSROOM CHALLENGE!

Get your fellow teachers in on the fun with a friendly competition to see who can get the most students registered and the most students completing Finn's Mission.

## THE CHALLENGE

- Class or grade with the most students registered online
- Class or grade with the most students completing Finn's Mission

## HOW IT WORKS

- Classroom teachers send weekly emails to families during the program.
- Track by classroom, pod, or grade.
- Create a visual leaderboard or announce those in the lead on the morning announcements.
- Offer a reward for the top class or teacher at the end!

## INCENTIVE IDEAS

- A special parking spot for the top teachers for a week
- A movie day for the top classes
- Extra planning/prep time for the top teachers
- A popsicle party for the top classes
- A dress down day for the top teachers
- A pass to get out of carline duty for the top teachers

## SAMPLE MESSAGE FOR TEACHERS TO SEND

**SUBJECT:** We need your help! Sign up today!

**Kids Heart Challenge** is here! Our students are learning how to keep their hearts and brains healthy, and raising funds to help kids with special hearts.

We're asking all families to register and complete Finn's Mission, where you will learn Hands-Only CPR and the warning signs of a stroke. All students who register will receive a free wristband.

Plus, if 50% of our school's students register online, we will receive a BONUS \$500 to purchase PE equipment! And, the class with the most students registered and the class with the most students completing Finn's Mission will win our school's Classroom Challenge!

Here's how you can help:

1. **Sign Up Today:** [heart.org/schools](http://heart.org/schools) or download the AHA Schools app.
2. **Raise Funds To Help Kids With Special Hearts**
3. **Complete Finn's Mission:** Share with family and friends through text and/or email so they too can learn Hands-Only CPR and the warning signs of a stroke.

Thank you for supporting our school and students in saving lives!

Donations raised through Kids Heart Challenge helps kids like Tyson, Ava and Bodhi – all of whom depend on scientific breakthroughs and research to help them lead happier, healthier lives. You're also helping your school earn awesome give-backs, like new recess and physical education equipment!
